À PROPOS DE EXPERIENCE INTERNSHIP CANADA

EIC's mission is to attract international talents to Canada.

We give young students the opportunity to join this country with a particularly attractive business environment and working conditions.

To this end, we have developed an efficient process for selecting candidates with the aim of meeting their expectations while considering their abilities and preparing them as well as possible for job interviews.

"Our program allows candidates to gain significant experience in Canada under optimal conditions."

EIC takes care of all administrative and logistical constraints to allow elected candidates to focus on admission to internships and gain the most from it.

FINANCE

The financial industry is considered by many to be one of the most competitive sectors in the world. In an increasingly interconnected world, financial activity is at the heart of the global economy.

Only the best candidates with degrees in finance, accounting or financial engineering manage to obtain a place in the world's leading financial institutions. Gaining internship experience is a prerequisite for obtaining a long-term job in this sector. Toronto and Montreal are respectively the second and third largest financial centers in North America after New York.

Most of the world's most prestigious institutions are present in Canada, which is why we can offer internships in investment banking, consulting firms, multinational corporations, asset management firms, private equity funds and hedge funds.

Intern profile

- Education: business, finance, engineering
 - Specialization in finance
- Hard skills: proficiency in Excel, VBA, Access
- Soft skills: sociable, reactive, rigorous, pragmatic, cooperative
- Languages: French, English

Job description

- Financial modeling and analysis
- Portfolio analysis
- Recommendations of securities or financial instruments
- Identification and development of investment opportunities
- Compensation: salary and/or commission

LAW

We offer law internships in prestigious law firms for articling students who intend to study law, are currently in law school, or who have recently graduated from a law school.

Our articling students will have the opportunity to work directly with professionals in the sector in a professionalizing and educational environment. During your internship you will be exposed to various aspects of operations, including client meetings, legal research, and case management.

Intern profile

- Education: law
- Hard skills: writing, oral expression
- Soft skills: self-reliant, reactive, proactive, reliable
- Languages: French, English

Job description

- Legal advice
- Client management
- Drafting of legal contracts
- Compensation: salary and/or commission

MARKETING & ADVERTISING

Advertising and marketing are extremely dynamic and growing sectors. Marketing covers an extremely wide range of actions and is indispensable for any company marketing products or services.

Professionals in the field develop strategic communications between an organization and its consumers. Our marketing internship program puts candidates in positions that will allow them to acquire key skills in the field. We have access to companies of all sizes as well as the most prestigious marketing or communication agencies.

Learn how to use the latest technology, launch advertising campaigns to millions of people, learn the latest trends in data analytics, sales, and customer relationship management.

NOT-FOR-PROFIT ORGANIZATIONS

The not-for-profit sector is dynamic, vibrant and meaningful. Many career opportunities are open to you in fields such as social services, health and culture, to name a few. The only condition is to share their vision.

Over the last few years, the sector has grown considerably. The number of organizations has exploded, as has the number of their employees. Their contribution goes beyond financial aid, medical services or other charitable activities; they give people a purpose.

Two famous environmental organizations were founded in Canada: Greenpeace and Sea Shepherd were born in Vancouver.

Intern profile

- Education: all academic backgrounds, similar experience appreciated
- Hard skills: writing
- Soft skills: motivated, sociable
- Languages: French, English

Job description

- Policy, program and operations development
- Social media management
- Creation of communication materials

JOURNALISM & MEDIA

With the rise of digital platforms, media has been able to reinvent itself to welcome a whole new generation of journalists. Journalism has become globalized through several different media and previous experience in this field is crucial to getting a job in a reputable agency. This popular and very competitive sector values internship experiences that are rather rare in this field.

Your internship will consist of editorial, research, and copywriting work, and will give you the opportunity to work closely with those responsible for publications.

Our journalism internships will allow you to take on a wide range of responsibilities, including writing, photojournalism and other documentation methods that will allow you to build your international portfolio.

Intern profile

- Education: journalism
- Hard skills: writing
- Soft skills: creative
- Languages: French, English

Job description

- Writing press releases, opinion editorials, blogs
- Proposal of topics and articles
- Gathering testimonials

- Compensation: salary and/or commission

TRANSLATION

One of the few countries in the world that is both French-speaking and English-speaking, Canada is a dream destination for translation.

Our translation courses give linguists the contacts and tools they need to stand out from their peers. Whether through practical experience in a literary, legal, or specialized translation role, or through a complete cultural immersion daily, foreign language trainees will advance their skills.

We work with leading language and translation organizations across Canada. You will thus be placed in governmental, educational, scientific, and financial organizations.

Intern profile

- Education: languages
- Hard skills: writing
- Soft skills: cooperative
- Languages: French, English

Job description

- Transcription of articles, case studies and other texts
- Real-time translation
- Software review of translated documents for accuracy

- Compensation: salary and/or commission

HUMAN RESOURCES

We offer human resources and talent management internships in some of the world's most competitive companies. Human resources is considered to be one of the most important departments in a company, as it plays a number of key roles.

Our interns work in HR departments and play an active part in the recruitment and management process. HR internships involve active participation in the recruitment process and in the management of a company's most important resource: its staff.

Interns will play a crucial role in recruiting new employees, evaluating programs, managing and much more. Our internships provide valuable industry experience and insight into the corporate landscape.

Intern profile

- Education: business, management
- Hard skills: interpersonal skills, teamwork, team management
- Soft skills: attentive, rigorous, self-reliant
- Languages: French, English

Job description

- Participation in the recruitment process: publication of vacancies, profile selection, interviews, reference checks.
- Use of application management software
- Scheduling interviews
- Development of internal policies and staff compensation
- Compensation: salary and/or commission

Companies in the industry

COMMERCIAL DEVELOPMENT AND ENTREPRENEURSHIP

Business development is a combination of strategic analysis, marketing, and sales. Professionals in this field have the mission to find new drivers for the growth of a company, providing solutions to develop the turnover in a direct way (new customers or products) or in an indirect way (marketing, communication).

Experience in business development shows that you will be ready to take on management functions or even create your own company. Business development integrates with all sectors and companies ranging from B2B to B2C. Our Business Development internships are aimed at people with an entrepreneurial spirit, able to sell and evaluate the strengths and weaknesses of a sales cycle.

Our internships in Business Development will help you to enter the international market thanks to all the skills and the network you have acquired.

Intern profile

- Education: business, management, engineering
- Hard skills: interpersonal skills, writing, oral expression, commercial negotiation
- Soft skills: self-reliant
- Languages: French, English

Job description

- Customer portfolio development
- Response to calls for tenders
- Contract negotiation
- Business development proposals
- Prospecting for new customers
- Increasing growth (sales and turnover)

- Compensation: salary and/or commission
